follow the list below, they are of course not present on the original plates... Rare and superb collection of 25 lithographic plates in colors, including 6 on double page (The albums having been cut up over time to be sold in sheets, it is becoming increasingly difficult to find complete copies). It is very difficult to know exactly the number of plates provided in each album, the albums presented for sale always being with a different number of plates and very often coming from different albums of the artist. The most precise and reliable source in our opinion is that of the sem-goursat.com site, which references for this album, 27 plates. There would therefore be 2 boards missing in our copy, namely boards N°25 (Marthe Brandès) and N°27 (Suzanne Derval), both of which are single boards.
