

## Antique Alfie Email Diamonds Ring

1 250 EUR

Period : 19th century

Condition : Bon état

Material : Gold

### Description

Ring composed of an 18K (750°/00) yellow gold wedding band enamelled in black and centered with an accolade motif set with five antique cushion-cut diamonds. Estimated total mass of diamonds: approximately 0.55 carat Adaptation of an old motif from the 1870s on an old wedding ring Dimensions of the bezel: 20.50 x 8 mm Ring size (modifiable on estimate): 54 Gross weight: 5.30 g A little British look for our Alfie ring: born from the encounter between black enamel and the absolute yellow of a classic wedding band. The mix is quite successful, and you can be sure that you won't see it on anyone else!
