Description

We present for sale this interesting mirror in gilded wood in the Regency style and with glazing beads. Unfortunately it is not vintage but entirely in carved wood. No part in stucco, all the framing is in so-called Bérain strips, a majestic pontoon with a large central shell, perfect gilding. This ice cream for us is from the 20th century, it is a high quality copy, see the photos they speak for themselves. (E23)
