Description

Graceful Athenian with tripod structure in solid light wood. The circle of the upper part is formed of four wooden elements, largely molded. They serve as a support for a cream-colored earthenware basin, stamped 'Régal Ware - Made in England'. Two golden nets embellish the circumference and the interior of this container. The belt is fixed on three elegantly cut consoles, themselves established on a wooden tray, fretted on its three sides. The base consists of three baluster feet, turned, connected to each other by a helix spacer, with slightly concave sides, forming the base of this piece of furniture. This base rests on a trio of wheels offering perfect stability and mobility to this Athenian. It should be noted that this middle piece of furniture is supplied with its earthenware jug, perfectly matching the basin
