Description

France, late 19th century, early 20th century

Frame with floral motif

Embossed brass on wooden core.

Frame: 37.5 x 30.5 cm.

View: 21 x 14 cm.

At the bottom of the rebate: 22.6 x 14.8 cm.

Usable in portrait or landscape.

Original condition with magnificent patina of oxidation.

My opinion: an interesting transition frame with a rather late 19th century pattern and a surface process frequently used in Art Nouveau frames.
