Description

Bronze with brown patina, signed by the artist Rousseau on its circular terrace. The subject represents a young boy standing, his feet planted on the ground, his hands in his pockets. His outfit suggests that he is a sailor or cabin boy, with his beret trimmed with a pompom, and his tunic. The artist has chosen different textures on the work: the clothes have a granite appearance, contrasting with the skin of the face and neck, which is smooth. The young man carries a bugle on his back, and his smiling face inspires joie de vivre. This bronze with its refreshing theme and finely executed details will undoubtedly brighten up your decoration. ******** Period: Early 20th Very good condition.
