Description

Vintage 1960s son ring, in 375/°° white gold (9KT, clover hallmark) adorned in its center with a beautiful oval cabochon-cut turquoise with a deep and homogeneous color. Two rows of 8/8 cut diamonds surround this turquoise, in a swirling motion creating a pear shape. The domed turquoise cabochon adds volume and contrasts in color and material with the diamonds. The distribution of the stones on several levels as well as the asymmetrical movement of the entourage give this ring a beautiful volume. The many claws, and tight threads of the frame contribute to the relief of the whole and to a neat finish. Weight of the turquoise cabochon estimated at around 5.70 ct Total weight of the surrounding diamonds estimated at around 1.28 ct Gross weight: 7.34 g Ring size: 50 1/2 - can be modified
