Description

Discover our magnificent vintage system furniture from the 60s, a real find in teak that we found in Denmark in Aarhus. This unique piece of furniture consists of two modular shelves and a box fitted with two sliding doors that open onto a single shelf. Dating back to the 1960s, this piece of furniture has an authentic provenance from Denmark, more precisely from the city of Aarhus. It is made from teak, a noble wood known for its durability and resistance. The natural color of the wood lends a beautiful aesthetic and blends well with various home decor styles. This Scandinavian system furniture has a timeless style, characterized by clean and functional lines. It will bring a retro-chic touch to your living space, combining elegance and practicality. Its operation is simple and practical thanks to its two

modular shelves that allow you to adapt the storage space to your needs, as well as a box with two sliding doors that give access to an additional shelf. A particular detail to point out is the presence of some visible marks, testifying to the authenticity and experience of this vintage piece of furniture. These marks add a touch of history and character to the set, reinforcing its unique charm. In terms of dimensions, this piece of furniture measures H134.5cm x W83.5cm x D45.5cm, offering generous storage space without cluttering your interior. Its height, width and depth are balanced to fit various living spaces, whether in the living room, bedroom or office. In summary, our vintage system cabinet from the 60s, in teak from Denmark, is a real treasure that will bring a retro and Scandinavian atmosphere to your interior. Its functional design, combined with its elegant aesthetic, makes it a versatile and attractive piece of furniture. Don't miss the opportunity to own a unique piece of furniture steeped in history and style.
