Material : Leather

Length : 318 cm

Height : 55,5 cm

Depth : 92 cm

### Description

This large Gradual Lounge model sofa was the first piece that Cini Boeri designed for Knoll/Gavina. This sofa has a black fiberglass frame with an integrated shelf on the back. It is on 6 casters. The black leather cushions are removed, leaving only the fiberglass structure. The triangle serving as a "couch end" can be removed if desired, and opens to expand. Under the triangle, we find the number 35. The original black leather is supple, there are some cracks in this one in places (see photos). There are various small defects: - A crack in the height of the triangle. - Scratches from use in various places. - On the top of the triangle, the fiberglass "to bubble". - A mark at each end of the rear pillar in the upper part. - A small dent in the lower part of the shell (under the cushion). Work from the 1970s. More photos on
