Description

Pair of vintage lamps from the 1960s representing two owls or owls from the 60s by the famous Deknudt house. Very beautiful definition of sculpture and golden patina for these realistic and decorative pieces which are presented here with their original black and golden lampshades but possibility of being sold with modern greige-colored lampshades. Very good state of conservation and electrical functioning. Rare on the market, especially in pairs. Possibility of sending in France and all over the world.
