Description

Discover the pair of Cesca B32 chairs by the famous designer Marcel Breuer, a refined choice to bring a vintage touch to your interior. This pair of chairs is a true design icon, representative of the 70s. The Cesca B32 chairs stand out for their tubular structure in chromed metal, which gives the set a modern and elegant appearance. The seat and back are crafted from beech and are beautifully paired with delicate canework, providing superior comfort while adding a touch of natural charm. Originally from Denmark, these chairs are a testament to the excellence of Scandinavian craftsmanship. The combination of high quality materials, such as metal for the structure and wood for the seat and backrest, creates a harmonious contrast. The light wood color brings a subtle warmth to the whole.
