

Clock With Rotating Dial

680 EUR

Period : 20th century

Condition : Bon état

Material : Bronze

Diameter : 8,5cm

Height : 12,5cm/17cm avec la poignée

Description

Traveling officer's clock, hours and minutes displayed on two horizontal dials. Hours and minutes are indicated on labels. The body of the clock is in bronze decorated with finely chiselled Empire style motifs: friezes, drops of water, row of pearls. This clock works perfectly! Winding, setting the time and adjusting the advance are done from below using the original key provided for this purpose. The dial is protected by a cylindrical glass in perfect condition. Tilting carry handle on the top. Late 19th-early 20th century work.
