Description

Discover the Wonder Agral orange lamp carefully restored by Les Belles Vies, an exceptional piece that will bring a touch of retro style to your interior. This lamp has been lovingly sourced and meticulously restored. First, we subjected it to an airbrushing process to eliminate the traces of time and restore its former glory. Then we thoroughly cleaned and degreased it to give it an immaculate appearance. To give it new life, we applied a coat of primer, followed by several coats of vibrant orange paint, highlighting its unique shape and harmonious lines. Finally, we have added a secure electrical system, guaranteeing functional and pleasant lighting. Each lamp restored by Les Belles Vies is a unique piece, with its own characteristics and a story to tell. The bright orange of this Wonder Agral lamp
