Depth : 92 cm

Description

This gradual Lounge model sofa was the first piece that Cini Boeri designed for Knoll/Gavina. This sofa has a black fiberglass frame with an intergraded shelf on the back. It is on 4 wheels. The black leather cushions pull out leaving only the fiberglass structure. The triangle serving as a "couch end" can be removed if desired, and opens to expand. Under the triangle we find the number 36. The original black leather is supple, there are some cracks in this one in places (see photos). There are various small defects:- A crack in the height of the triangle.- Scratches from use in various places.- A small chip in the fiber inside the storage part, at the back of the sofa. Work from the 1970s. More photos on request. We also have a second sofa of the same larger model for sale on our
