Description

From FEBRIBUS Libri IV. Author DANIELE SENNERTO, Vratisl. If the. D. & medicinæ in Academia Wittebergensi Professore. Accessit Daniel Sennert (1572-1637) is a German doctor, professor at the University of Wittenberg. It contributes to the rebirth of atomism. He is credited with the first clinical description of rubella in 1619, which he calls "rötheln", and which the English call "german measles" (German measles).
