

Golden Repoussé, Tibet, XVIII Th

2 500 EUR

Period : 18th century

Condition : Bon état

Material : Copper

Width : 16 cm (hors tout : 18,5)

Height : 15 cm (hors tout 21,5 cm)

Description

Embossed work of a thick copper plate representing an Atlantean-type deity supporting an architectural element. This type of pattern is often present at the base of important statues or constructions such as the stupa. The ear pendants are set with a semi-precious stone, probably garnet. Good condition of the gilding. An elaborate support presents the framed object.
