Description

We present this bust in Carrara marble enhanced by a five-sided varnished cherry marble. This marble represents Madame de Récamier 1777/1849. It was developed (the original) by CHINARD, a great sculptor from Lyon. One that was sold was a cover made by the sculptor Alberto Aimé in the late 19th early 20th century. Ours is not signed but very well released in quality. (E23) Ref.Wb344
