Description

Rare helical core or spiral staircase in Beaujolais stone, from the 16th or 17th century in perfect condition, ready to be installed. Its outer diameter is 200 cm for a useful diameter of 160 cm. Its original starting first is carved with a cavetto on its core, two rings are probably sealed to hold a rope as a handrail. We have 27 steps 17 to 18.5 cm high excluding the laying joint and six 14.5 to 16 cm excluding the laying joint and another six steps to be restored. This staircase can be sold in a single batch or according to your needs on estimate. You can visit our website:
