Description

Half-alliance type ring in 750/°° white gold (18 KT, owl hallmark) adorned with fine calibrated sapphires and brilliant-cut diamonds, set in a rail, characteristic setting of Art Deco rings. This rhythmic alternation between diamonds and sapphires, as well as the shape of the ring which is fully revealed in profile, give this half wedding band, a sober jewel par excellence, an aesthetic yet very typical of the Art Deco period. Unlike the rings of this period, this one is set with fine sapphires in deep cornflower blue. Total weight of sapphires estimated at approximately 1.00 ct Total weight of diamonds estimated at approximately 0.18 ct Gross weight: 4.61 g Ring size: 56 and a half - possible size adjustment to be studied by our workshop (current diameter 1.81 cm / close US size 8) Condition: imperceptible
