15th Century Ironwork.

950 EUR

Period : Before 16th century

Condition : Bon état

Material : Wrought iron

Width : haut: 56cm/bas: 48cm

Height : 116cm

Description

This piece, worked in a single piece of iron, seems to be a work of mastery. It is presented in the form of a plant whose upper branches, crossing each other, create a "mandorla" where you can see a question mark (irony of the creator on the meaning of his work?). The bottom is made up of two inverted U-shaped ternary branches from the center of which springs a stem ending in double eyelets.
