

Brass Circle Movement

1 650 EUR

Period : 17th century

Condition : Très bon état

Material : Metal

Width : 21 cm

Height : 23,5 cm

Description

We present this Brass Circle Clock Mechanism, Single Hand, Rear Escapement. This mechanism is Franc Comtois from the 17th century. The brass gallery was missing but I have one in my stocks, I attach it even if the anchor hole does not fall exactly opposite the fixing point. Very good condition, complete. (E23)
