Biography :

Gervais Durand (1839-1911) participated in the 1889 Universal Exhibition where he was awarded a silver medal. A. Picard's exhibition report stated that, « Mr Durand, cabinet-maker, as skillful as modest, displays for the first time very fine furniture, which has been designed and made by him. He is walking in the footsteps of giants such as Beurdeley and Dasson ». Durand made almost exclusively reproductions of 18th Century masterpieces.

Joseph Baumhauer died in 1772 in Paris. This important French cabinet-maker born in Germany was appointed Dealer and Cabinet-maker to the King around 1749. He executed bureau plats, corner cabinets, chests of drawers and secretaires.
