Description

19th century bronze sculpture representing an oriental water carrier by Marcel Debut. Very pretty sculpture known and listed by this great artist of the mid-nineteenth century. Marcel Debut, 1865 1933 was very famous in his time and received an honorable mention medal at the Salon of French Artists of which he was a member in 1895. He also exhibited at the Salon from 1883. Here a very fine work whose details must be admired whether it is at the level of the face for example or the links elsewhere of the water containers. Very nice general patina of untouched origin. Possibility of sending in France and all over the world.
