Charming Pastel Portrait Of Young Woman With Earrings

230 EUR

Period : 20th century

Condition : Très bon état

Material : Pastel

Description

Charming portrait of a young woman in pastels executed with great delicacy. A soft palette of colors in pearly, blue, gray-white tones with subtle and velvety nuances that only pastel allows. It is highlighted by its original framing strip in copper stuccoed wood, nicely molded decorated with crossed ribbons. Produced at the end of the 19th century or very early 20th century and never unframed (only the back kraft has been changed), it is in its frame, with its slightly wavy glass and its original assembly carried out "in the rules of l'art" with cleats so that the pastel is not in contact with the glass. Dimensions: 37 cm x 27 cm Very good condition. Minor wear to the frame. Its counterpart is put up for sale in another announcement. Do not hesitate to combine them!
