

Portrait Of A Man XVIII Th Century.

450 EUR

Period : Before 16th century

Condition : Prévoir restauration

Material : Pastel

Width : 45,2 cm.

Height : 53,5 cm.

Description

Portrait of a man of quality in the 18th century, represented in his blue coat, his old burgundy shirt and his white silk scarf serving as a collar closed by a golden ring. The portrait is in its gilded wooden frame and its window is also from the period. The state of the frame and the pastel have suffered abuse, the frame by the annoyance of the assembly wood and the pastel by the humidity of the uninhabited property for years.
