models of the 18th and 19th centuries. DID YOU KNOW ? Since 1930, the art bronze manufacturer Tisserant Art & Style has exercised its passion for bronze. A key player, the House, labeled Entreprise du Patrimoine Vivant (EPV), perpetuates and develops the work of bronze, true French know-how. In all, four generations have passed on their knowledge to create, re-create, reproduce and restore pieces, each more exceptional than the next. All were imagined and fashioned in the Tisserant Art & Style workshops located in the heart of the capital. He is also the only artistic bronzier to have kept his workshops in intramural Paris! A choice that allows them to stay close to historic and emblematic monuments, a real source of inspiration. Not to mention that this proximity facilitates meetings and collaborations in the workshop!
