

Picking Mushrooms In The Undergrowth

750 EUR

Signature : A définir

Period : Before 16th century

Condition : Très bon état

Material : Oil painting

Length : 55x47

Description

Very nice painting representing a picking of mushrooms in the undergrowth. Beautiful pictorial quality oil with a nice light! Characters superbly made by the artist who remains to be defined, probably with a great hand given the quality of this unframed canvas. In the format of 55x47 cm. Visually very nice and very decorative by its quality and its subject! Do not miss !
Gorgeous !
