

Malachite Frog - Asian Sculpture

3 900 EUR

Period : Before 16th century

Condition : Parfait état

Material : Semi precious stone

Length : 25 cm

Width : 12 cm

Height : 9 cm

Description

This malachite sculpture represents with exceptional precision a mother frog and her three young. The smooth and shiny malachite stone makes the frogs look like they just got out of the water and are still wet. The typical mottling of malachite, with a swatch of green colors, brings visual and aesthetic depth to the work, creating a piece of art rich in detail and symbolism. The set rests on a wooden base, completing the organic nature of this piece
