Description

Very large enamelled terracotta vase from the late 19th century in polychrome slip. Exceptional object by its size, height cm, and its magnificent decoration composed of cascading flowers and a parrot or parakeet resting on its branch in the upper part of the vase. Very delicate colors evoking impressionism and quality of the modeling of the details reminiscent of a large factory such as Sarreguemine or Longchamp. Note the very good condition of this sculpture vase, both for the reliefs and for the liveliness of the colors. Possibility of direct delivery in France, foreign delivery to be studied.
