

Girlish Pastel

Description

We present this pleasant pastel representing a young and pretty young girl. This pastel dates, in our opinion, from the beginning of the 20th century, framed by a very simple golden strip. Very pleasing to the eye. There is a signature at the bottom left obliquely that we have not deciphered. (E23)

650 EUR

Period : 20th century

Condition : Très bon état

Material : Pastel

Width : au cadre 44 cm, du panneau 40 cm
