Description

Round, cheerful and flowery, here is a pretty low pedestal table dating from the 1950s and imbued with a completely "bohemian" charm! Tapered "compass" legs, in black lacquered wood, fixed to the top by inclined metal plates; tips of feet with brass clogs. Round tray decorated with a stenciled floral motif fixed under glass. Very good general condition, with small "scratches" of use on the glass top (the traces visible in the photos of the top are reflections of the roughness of the wall in front of which it was photographed! ..) Ideal in a bohemian, retro, fifties, gipsy, guest room or caravan decor Height = 48 cm Diameter = 68.5 cm
