Description

Here is a beautiful bronze sculpture of Japanese origin. The fish has scales in the shape of a semicircle, its open mouth has twelve sharp teeth, it stands on four feet. Beautifully crafted, this sculpture weighs a lot. For the state, note small traces and scratches, friction and traces of oxidation, however the whole is in a quite presentable general state. Our many photos allow you to appreciate the quality of the object. For the state, thank you for detailing the photos. Feel free to zoom. The photos are an integral part of the description.
