Description

I offer you this pair of lamps, of great decoration quality from the 1970s. They take up the characteristics of ancient Chinese archaic bronzes and the bronze subjects have a superb deep antique green patina. I own the lampshades in poor condition, but they exist. a lacquered plinth has lost its feet and its socket. The lamp with a plug has been tested and works perfectly as well as the period dimmer. In my opinion more reliable than a current drive!
