### Description

An important lamp in hard paste from the 18th century Enamelled painted with a brush with gold extensions... In royal blue... In very good condition, just a small chip inside the bottom (see photo) Mount in chiseled molten gilded bronze, original With several elements in individual fixing... The electrical assembly had to be converted in the 19th century Then brought up to standard at the beginning of the last century... I redid and therefore changed the electrical wire. ... Bears a signature of two entwined letters And I think it is 2 initials engraved in the dough .. The lampshade was created in silk and cotton The rod that holds the lampshade can grow and it can also be oriented ...Weight...about 5 kilos
