Description

We present this ceramic from Vallauris in the shape of a bottle with a long neck. It was made in Vallauris in the 1950s and 1960s and if you look closely at the photos on each side, you can see a woman. On one side we guess a side very inspired by Brigitte Bardot. In the ass a signature for me illegible and Vallauris. A knowledgeable amateur to help me!!! I like this object. (E23)
