### Description

Pair of Gien ceramic vases, dating from the end of the 19th century, with gilt decorations of tied ribbons and flowers on an Antwerp blue background. These vases have a long swollen neck with a constriction and a baluster body with crushing. The whole rests on raised annular bases. For the history, the earthenware factory of Gien was created in 1821 in the Loire Valley in the heart of France. Gien, an internationally renowned factory, is renowned for its goldsmith's pieces which, for 200 years, have never ceased to fascinate both collectors and amateurs. This pair of vases is the reflection of this know-how.
