Material : Solid wood

Description

Showcase in wood painted gray "Toile de Lin".

It rests on four ball feet, it opens with a glass door giving access to five levels of storage.

The bottom of the cabinet is perforated on the upper part allowing communication between the storage part and the rear part (see photo).

The upper part of the cabinet opens like a lid to a maximum of 45 degrees and can remain in the open position thanks to a metal strip.

Very good general condition, we note that the lower upright above the right foot has been restored.

This remains discreet with its transformation into gray "Linen Canvas" color, this does not in any way prevent its stability and solidity.

French work from the second part of the 20th century
