Description

Sublime Madonna and Child painted on panel, around 1800, in the style of the works of Raphaël. The Virgin Mary is represented seated on an entablature, the infant Jesus standing on her lap, with a landscape of the Italian countryside in the background. The magnificent colors, the finesse of the details, and the grace of the whole make this painting a work of the greatest refinement. It is presented in perfect condition, in an old frame, probably 16th or 17th century. Total dimensions: 74 X 60 cm, and 58 X 44 for the panel alone
