850 EUR

Period : 16th century

Condition : En l'etat

Material : Painted wood

Height : cm. 34,5

Description

Sculpture of an angel in lacquered and gilded wood from Central Italy, they appear in an upright figure, on a square base in the form of a plinth bearing letters (?) on three sides, with deficiencies and wear compatible with the dating of the end of the 16th century. Without an arm and wings, it has kept its charm. It is assumed that the wings should have been nailed to the back rather than interlocking, as there are no interlocking marks. Measurements: base cm. 10.5 x 10.5 - height cm. 34.5. Period: 16th century
