

Gold Ring With An Etruscan Carnelian Scarab Of A Figure Carrying An Amphora.

3 000 EUR

Period : Before 16th century

Condition : Bon état

Material : Gold

Description

A gold ring with a carnelian scarab of a figure carrying an amphora.

Etruscan, 4th - 5th Century BC.

Ring size K UK / 5.25 US.

The scarab measures 1.5 x 1cm.

The gold ring is modern.

The face of the intaglio has historical damage, however it is extremely rare to find an ancient hardstone scarab of such exceptional quality. It is clear that the sculptor devoted more care and attention to carving the scarab itself rather than its intaglio.
