Description
-------------

18th Century Square Tomettes - 100 m2 of 16 cm x 16 cm Renaissance Concepts offers you this lot of 100 m2 of 16 cm x 16 cm square tiles from the attics of an Angevin property. Dismantled by us, these tiles were sorted, scraped and all calibrated to the closest to 16x16. With no breakage or paint, they are ready to rest. Thickness of 2.5 to 3 cm Reserve 6 to 8 cm required. 38 pieces per m2. Approximately 50 kg per m2 Ideal for covering underfloor heating. The whole laid, tiles and mortar, serving as a heat catalyst for long restitution ensuring energy savings. We would like to sell this lot either as a whole or in part. If this surface is not large enough, we can match it with other tiles from the same period, same texture and color. Do not hesitate to ask us for any advice regarding the layout to be planned. This

will ensure the development of the planned location. Many solutions are possible: installation in carpet with perimeter rails in terracotta, wood, installation in square modules, etc. To ensure traditional installation - the only method optimizing the final result - we will provide you with our installation advice based on 30 years of experience in order to avoid any errors damaging to the desired aesthetic purpose. We will advise you on the best finish to plan, avoiding any inconvenience in the future. If you do not know how to install these floors, we can offer to contact our specialist installers, Compagnons du Devoir, who know how to guarantee installation according to the criteria necessary for this specific old product. Pay attention to the porosity of this terracotta made by hand more than two centuries ago. Only traditional methods of implementation ensure a perfect result. Our carrier is at your disposal for easy and professional delivery. Ask us for a quote. Do not hesitate to contact us for any additional information you require.
