Description

Large 18th century torchiere candelabra in Louis XIV, Regency style in carved and silvered wood. Very nice decorative effect for this large decorative element, 147 cm high, worked in a pure classic French style with a very beautiful sculpture definition and a very beautiful silver patina with golden reflections of untouched origin. Note an electrification from the middle of the 20th century which in no way distorts the part which can be easily removed or kept for modern use. Possibility of sending in France and abroad by professional carrier and secure package.
