3 500 EUR

Period : 20th century

Condition : Restauré par notre atelier

Material : Wrought iron

Width : 66

Height : 79

Depth : 89

Description

French Design Pair of wrought iron and solid bronze armchairs from the 1950s. These are very likely prototypes designed by a major post-war designer, having never been manufactured even in small series for cost of production reasons. In fact, each armchair is made up of around fifty pieces of iron and bronze, all assembled by screws with threads tapped into the mass: no nuts, no welding. These are unique and anthology pieces....
