

Pomponesque Bear

420 EUR

Period : 20th century

Condition : Bon état

Material : Solid wood

Length : 33

Width : 15

Height : 17

Description

Beautiful sculpture of a walking bear carved from two pieces of glued wood. The sculpture is not signed. It must date from the 1940s, 1950s. It is in very good condition, apart from a mark of a few millimeters on the bear's right front paw visible in the photographs. According to the person who sold it to me, the author was a sculptor who resided in Sologne.
