Earthenware Dish

450 EUR

Period : 18th century

Condition : Très bon état

Material : Earthenware

Length : 47 cm

Width : 34 cm

Description

We present this spectacular quatrefoil earthenware dish from the 18th century bearing the monogram on the base RB. In the center a scene with three very typical 18th century characters. We think this dish is from the southwest but after editing the ad, we are going to do some research on TARDY earthenware and we will hopefully be able to provide details. It is absolutely intact, no cracks or restoration. (E23)
