

Kwan Yin Of China

350 EUR

Period : 19th century

Condition : Parfait état

Material : Semi precious stone

Width : 8 cm

Height : totale 14 cm

Depth : 4,5 cm

Description

We offer this small statuette (kwan yin) from China in carnelian (semi-precious stone) enhanced by a mahogany base, in any case a precious wood. Carnelian is a semi-precious stone that first appeared in 2700 BC. JC It seems that this stone has incredible properties. I recommend reading everything that is said about carnelian on Wikipedia. Our Kwan yin is either from the late 19th century or early 20th century. Perfect state of conservation. (E23) Ref. HB750
