### Description

Pretty bowl with bignones in engraved glass, rare "Arsall" signature. ARSALL is the brand of the Weisswasser glassworks (Vereinigte Lausitze Glaswerke AG) located near Dresden. The patent for this brand was registered in 1918. It produced until 1938 in a Nancy School style: colored glass vases, decorated with a floral motif, acid-etched in cameo relief. This rare signature is therefore for amateurs and collectors. Pretty rotating decoration of pink and purple bignone flowers on an opaline background, entirely acid-etched. Nice shape on a small heel and open collar. 14 cm in diameter and 10 cm in height, perfect condition, signed "arsall" on the side, circa 1920-1925. Beautiful collector's item.
