

Napoleon III Games Table

2 100 EUR

Period : 19th century Condition : Restauré par notre atelier Material : Marquetry Length : 85 cm Width : 42 cm Height : 75 cm

Description

Very elegant game table from the end of the 19th century, in the Venetian taste. It is made of ebony veneer, blackened wood and is decorated with very fine bone inlaid decorations. The tray opens and unfolds to reveal a green felt. This piece of furniture was restored by us, we preferred a filled-waxed finish, for a satin finish.
