Description

It is ready to be installed. This diorama from the Napoleon III period, circa 1860, is in good state of conservation, everything is original, it has never been deframed. Its frame is gilded with gold leaf. This gilding is quite well preserved. Some very small traces are visible on the window (inside), it is quite discreet. The clothes, the cross and the floor are made of fabric. I think the faces and the background decoration are painted fabric, or very finely woven. Dimensions: 27 x 23 cm. Fast, careful and very secure shipping.
