### Description

Large exceptional mirror Height 218 width 118cm Frame with glazing beads carved in imitation of bamboo, decorated with a rich Japanese floral decoration. The gilding is superb, we can notice an alternation of matte gold and shiny gold, which gives pretty contrasts and relief. The central glass and the glass of the glazing beads are original, the tin in good condition, some minimal pitting. The parquet flooring is also original. Very good state of conservation, old restoration to be planned. I will inform you at 0687403174 of other photos on request delivery throughout France by specialized art carrier. Quote on request I deliver myself to Ile de France, Loire Valley center, Grand Est, Burgundy, Franche-Comté.
